

## **LETTER TO THE EDITOR**

**Friday, October 11, 2024**

We are supporting Kathleen Curry as our representative for Colorado House District 58.

As a small business owner in Lake City for nearly 50 years and knowing small businesses in our community are the lifeblood of our economy, we are confident Kathleen Curry will be a strong advocate at the legislature for us. She has been a small business owner in Gunnison herself and knows how important it is that we have a voice on important issues that affect us all. She also has been endorsed by the National Federation of Independent Business.

Besides her support for small businesses, she has done critical work to help protect our valuable water rights for the western slope of Colorado and to see that public education is properly funded.

More importantly, Kathleen Curry can be trusted. As a former Colorado State representative in 2004 – 2010, she was a tremendous steward of the public good and approached all matters with a drive to find the best solutions possible for all concerned. I am confident she will continue to do that for us if she is elected next month. We know we can count on Kathleen Curry's word.

Sincerely,  
Philip and Carolyn Virden
